### Speer Soft Point.

■ For rimfires, Federal now offers .22 Long Rifle AutoMatch, a target load specifically designed for autoloaders.

■ The Fusion line now includes four handgun hunting loads. They include a 158-grain .357 Magnum at 1,235 fps, a 210-grain .41 Magnum at 1,250 fps, a 240-grain .44 Magnum at 1,350 fps and a 260-

# NEW FOR 2006

Federal's new short .338 in two loadings generates more power than the .308 (far right, for comparison).

grain .454 Casull at 1,350 fps.

■ There's a Fusion 115-grain .25-06 load, a 140-grain .280 Remington load, a 140-grain 7mm-08 load, a 200-grain .338 Win. Mag. load and a 150-grain .300 WSM load.

■ Shotgunwise, the big news from Federal is its High Density nontoxic shot loads.

This tungsten-alloy shot is soft, yet 35 percent denser than lead.

## BUFFALO BORE

■ Interesting offerings include several +P+ 9mm loads featuring Speer Uni Core bullets that include a 115 grain at 1,400 fps, a 124 grain at 1,300 fps and a 147 grain at 1,175 fps.

■ Also in the auto-pistol arena are two +P GDHP .40 S&W loads: a 155 grain at 1,300 fps and a 180 grain at 1,100 fps, plus a 180-grain FMJ Flat Nose at 1,100 fps.

■ A "Lower Recoil" .44 Magnum load fea-
